

C-Series Claw

VLR 301

Claw Vacuum Pump

Experience The Difference

High Efficiency

25% more cfm/hp than the competition

Lower Power Consumption

24% less, lowest in its model class

Quieter Noise Level 76 dB(A)*

7 dB lower than the competitive model

Smaller Footprint

10% reduction in required floor space

Deeper Vacuum

25.5" Hg for continuous operation

Green Technology 

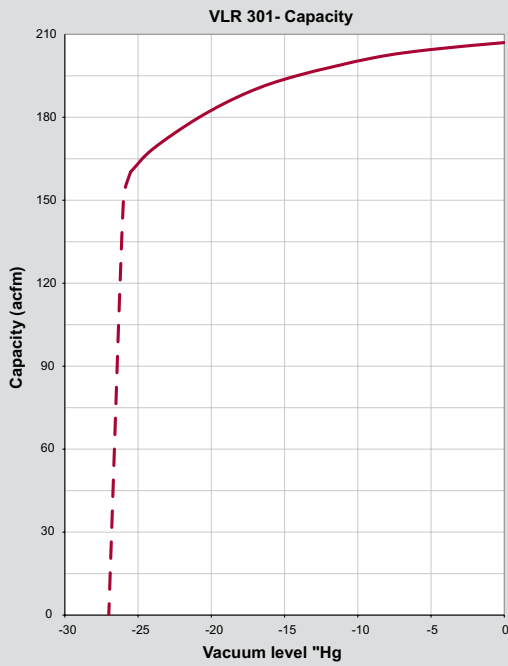

Oil-free compression, zero emissions

Easy To Maintain

Maintenance required after 20,000 hours

* 18" Hg vacuum

Applications

- Medical Vacuum
- Environmental/
Soil Vapor Extraction
- Pneumatic Conveying
- Pick and Place Lifting
- CNC Router Tables
- Industrial Vacuum
- Central Vacuum Systems

Advantages

- High Efficiency
- Oil-Free Compression
- Contactless Operation
- Compact Design
- Low Noise
- Minimal Maintenance
Every 20,000 Hours
- Safety Relief and Check
Valve are Standard
- Suitable for VFD Operation

VLR-301
Vacuum pump
